Patient Education and Instructions

- **Metformin:** Take with food to minimize gastrointestinal upset. Do not chew or crush extended-release tablets.
- **Lisinopril:** May cause a dry cough. Report to physician if severe. Avoid potassium supplements unless directed by physician.
- **Atorvastatin:** Best taken in the evening. Avoid large quantities of grapefruit juice. Report any unexplained muscle pain or weakness.
- **General:** Maintain a log of morning fasting blood glucose and home blood pressure readings. Bring this log to the next clinic visit.
